

# Reduce Shipping Costs by 30% - 50%+

Myndshft has teamed up with eCommerce Direct, a provider of World-Class fulfillment and freight management solutions, to help diagnostics labs reduce shipping costs and increase focus on taking care of patients.

## Myndshft + eCommerce Direct

Myndshft and eCommerce Direct realize that patients, providers, and hospitals depend on your laboratory for accurate results as possible. But labs don't have the time or resources to manage the cost and complexity of inbound and outbound shipments. We're here to take that off your plate and give a boost to your bottom-line at the same time.

## How it Works

## Solutions & Benefits

### SPECIMEN SHIPPING MANAGEMENT

We work with you and your customers to optimize specimen pickup and delivery – inbound, outbound, overnight and same day – we have a full set of capabilities to meet your needs.

### STORAGE & INVENTORY MANAGEMENT

Store inventory and shipping supplies in our modern facility. We provide materials resupply on a "just in time" basis with minimal effort by your customers and staff.

### BEST RATES

We've partnered with FedEx and other industry leading companies to provide you the lowest cost shipping and delivery services.
